

TR140A

Repeater

Architecture

Fixing mode	surface-mounting
-------------	------------------

Functions

- amplification of control commands between radio controlled products

Connectivity

Receiver category	2
- to increase the radio range	

Main electrical features

Frequency	50 Hz
-----------	-------

Voltage

Operating voltage	230 V AC
-------------------	----------

Frequency

Radio reception frequency	868,3 MHz
---------------------------	-----------

Power

Total power loss under IN	2 W
- low intrinsic energy requirement	

Endurance

Transmitter duty cycle	1 %
------------------------	-----

Materials

Colour	white
--------	-------

Dimensions

Dimensions (LLxwxhh)	203 x 77 x 26,5 mm
----------------------	--------------------

LED control

- with green operation LED

Connection

Conductor cross-section (flexible)	0,5 2,5 mm ²
Conductor cross-section (rigid)	0,5 2,5 mm ²
Connection cross-sect. rigid cable	0,5 / 2,5mm ²
Connection cross-sect. flexible conductor	0,5 / 2,5mm ²

Safety

Protection index IP	IP30
---------------------	------

Instructions

- The device does not need any function settings
